Starting prices and final number of SRECs announced	Friday, October 11, 2019
Trial Auction	Wednesday, October 16, 2019
Auction starts	Thursday, October 17, 2019

I.2 Ranges of SRECs Available

PSE&G, JCP&L, ACE, and RECO will be the sellers in the Auction. There will be two vintages available in this October 2019 Auction: 2019 SRECs and 2020 SRECs. The EDCs estimate that there will be between 1,400 and 2,100 2019 SRECs and between 90,000 and 136,000 2020 SRECs

available at the Auction. The 2019 SRECs were created in GATS as generation between June 1, 2018 and May 31, 2019. The 2020 SRECs were created in GATS as generation between June 1, 2019 and September 30, 2019.

In addition, at the conclusion of the Auction, bidders will have the opportunity to submit a bid for a single block of Pre-2019 SRECs (expected to consist of 2018, 2017, and 2016 SRECs). The block will contain fewer than 500 SRECs. The bidding procedure for this additional single block is explained in more detail below.

The Auction Manager will provide to bidders the exact number of 2019 SRECs and 2020 SRECs that will be available at the Auction and the exact composition of the additional single block with their notification of qualification.

I.3 Bid Assurance Collateral

No bid assurance collateral is required for the October 2019 SREC Auction. Each bidder will be able to bid on all blocks available in the first round of the Auction.

I.4 Bidding Procedures: Additional Single Block of Pre-2019 SRECS

At the conclusion of the Auction, bidders will have the opportunity to submit a bid for an additional single block of Pre-2019 SRECs. The block is expected to include fewer than 500 2018, 2017, and 2016 SRECs in total.

Bid Process

Bidders submit as a bid a single price per SREC to purchase the entire additional single block according to the following process:

1. The Auction Manager announces the start and end times of the bid window through system mail in the Auction Software.¹
2. Bidders submit their bids via system mail during the bid window. No information about the bids will be announced during the bid window.
3. At the close of the bid window, all bidders that submitted bids for the additional single block will be advised of the results.

¹ For purposes of participation in the bid process for the additional single block, all bidders will be able to see auction results until the conclusion of the Auction.

Bid Format

A bidder sends a message to the Auction Manager via system mail in the Auction Software that contains the bid price per SREC and that states that the bid price applies to the additional block. For example:

```
[company_name] bids $XXX.XX/SREC to purchase the additional block
```

The exact number of Pre-2019 SRECs to be included in this block will be provided with the notification of qualification.

Bid Evaluation

It is expected that the additional single block will be awarded to the bidder with the highest bid. However, the Auction Manager and the EDCs reserve the right to reject all bids.

I.5 Tentative Date for the Next Auction

The following is a tentative date for the next Auction as well as the vintage that is expected to be made available:

Tentative Auction Date	Vintage(s) Available	Seller(s)
Thursday, December 5, 2019	2020	PSE&G, JCP&L, and ACE
